## Flow Chart<sup>1</sup> of the Final Round: Connecticut Debate Association, New Canaan High School, DATE

## This House would RES.

The final round at New Canaan was between the Greenwich team of Aubrey Niederhoffer and Connor Hone on Government and Joel Barlow team of Catherine Gutowski and Quinn Speck on Opposition. The debate was won by the Government team from Greenwich.

## **Format Key**

I take notes on an 11" by 14" artist pad. The two pages below are formatted to print in portrait mode on 8 ½ x 11 paper. The first page covers the first three constructive speeches: the Prime Minister's Constructive (PMC), the Leader of the Opposition's Constructive (LOC), and the Member of Government Constructive (MGC). The second page covers the Member of Opposition Constructive (MOC), the Leader of Opposition Rebuttal (LOR) and the Prime Minister's Rebuttal (PMR). The pages are intended to be arranged as follows, which is how my actual flow looks:

In general, the constructive speeches has arguments related to the Government contentions at the top, and those relating to the Opposition contentions at the bottom. This is not how the speeches may have been presented, in that often a speaker will deal with Opposition arguments prior to the Government. The "transcript" version of this chart presents the arguments in each speech as presented.

The chart uses "G1," "O2," etc. to refer to the Government first contention, the Opposition second contention and so forth.

Points of Information are indicated by "POI:" and this marker, the question and the answer are in boldface italics.
